

# Advanced 10k programme

This programme is for you if you consider yourself to be an advanced runner. You will have already completed 10km (6 miles) races before, perhaps following the TrainME beginner and intermediate training programmes.

Use this alongside our 10km training webpage: [www.raceme.ae/training/10km](http://www.raceme.ae/training/10km)

The effort levels described here correspond to the 'Activity' column. 1 km is equivalent to 0.6 miles.

For this training programme, distances in miles have been rounded to the nearest whole number for simplicity.
